Total music rolls listed in this report: 3350

Style Notes:
1. ~ (tilde): Represents a single unknown character in numbers.
2. _ (underscore): Represents an unknown number of characters in text.
3. * (asterisk): Indicates incomplete music roll data when it follows the music roll number.
4. The source line shows the primary, most trusted information source; Other (i.e., secondary) shows a source that influences, augments, modifies, or confirms the primary source.
5. Rolls with an unknown roll number are assigned an identifying code and are grouped together at the end of the listing.
6. Wurlitzer Monthly Roll Bulletin policy: Only the first instance is recorded for a roll mentioned in a monthly bulletin, although oftentimes some rolls are listed in later bulletins.
7. Occasionally a composer pseudonym is followed by the true legal name (enclosed in parenthesis).
8. When searching for late Wurlitzer "0" series roll numbers substitute the letter "o" for the zero, followed by the non-zero digits, i.e., o1, o229, etc. The letter "o" is used in place of a zero for technical sorting reasons.
